The evidences that prove that the Qur'an is the word of God Part 1

By Ahmed Abdel Aziz 12 March 2022

On a cold winter evening in 2008, I saw a spartan man in shabby clothes man without knowledge speak about Hereafter in front of some people, I was deeply touched by his courage, and his truthful character, his words came right to my heart and made me ask myself:

What makes such an unimportant man get courage and speak in front of a lot of people about something they know better than him?

“Certainly a huge reason pushes him to speak with his simple and truthful words” I answered myself “maybe this man is tricked by his patrimoine, and the Qur’an is just a simple book written by a simple man called Mohammed, but maybe the Qur’an is really the word of who created everything, I must search about authenticity of Qur’an”

That evening was my ground zero to begin a new complete life with the Holy Quran, and I will share with you in the following lines some of the results of my research about the Qur’an .

First of all the Qur’an is different from any book you read at all, He shocks you with his first sentence (verse)

In the name of Allah, the Entirely Merciful, the Especially Merciful (I start)

Because you express yourself when you read this verse, that’s really strange, because usually when we read a book, the writer expresses himself to us, isn’t it?

Expressing ourselves doesn’t finish with the first verse, but during all the first chapter, we talk about ourselves defining our relationship with Allah, and asking Him to guide us. Isn’t it worth a deep meditation?

Perfectuality of Qur'an

When we turn the first page the Qur’an shocks us with his declaration of his perfectuality

This the book about which there is no doubt, a guidance for those conscious of Allah.

Ch 1 verse 2

No doubt!!

How does Mohamed dare to say that?

Usually in the preface on any book, the writer apologize for any error will be occurred in his book, but in the Qur’an we found the opposite, he claims that no doubt therein, that means one thing, that the Qur’an is the word of God, because only God is perfect, and that what is said by the Qur’an himself in:

Then do they not reflect upon the Qur’an? If it had been from (any) other than Allah, they would have found within it much contradictions

Ch 4 verse 88

During more than fourteen centuries of trying to find any error, mistake or contradiction in the Qur’an, but nothing from that can’t be found therein, isn’t it sufficient as evidence that the Qur’an is the word of God?

I think so, and if you don’t agree with me, give us another explanation. Why is there no error in the Qur’an as we found in the Bible?

In fact the evidences that prove that the Qur’an is the word of God are innumerable, Therefore, I will not be limited with the previous evidence, and I will give you many other evidences those are impossible to reject

Challenging people to come up with the like of the Qur’an

Let us suppose that Muhammad who invented the Qur’an, so all the people of Muhammad are able to invent something like the Qur’an or more better than the Qur’an, because the Qur’an is the effort of one man, certainly the effort of many people will be more better and greater than the effort of the one.

But if the people of Muhammad aren’t able to give something semblable with the Qur’an, we can deduce the Qur’an is not from people, or Muhammad, because none of them is able to produce something like the Qur’an, and that what exactly happened because Allah said:

And if you are in doubt about what we have sent down upon Our Servant than produce a surah the like thereof and call upon your witnesses other than Allah, if you should be truthful

But if you do not and you will never be able to, than fear the Fire, whose fuel is people and stones prepared for the disbelievers

Ch 2 verses : 23 – 24

Say, if mankind and the Jinn gathered in order to produce the like of this Qur’an, they could not produce the like of it, even if they were to each other assistants

Ch 17 verse 88

Although their hateful of Qur’an and Islam the old arabes didn’t dare trying to produce the like of Qur’an, because they certainly knew that is impossible, and any attempt will surely fail.

Nowadays some ignorant people pushed by their arrogance tried to give something semblable with Qur’an, therefore, all what they did was show their ignorance of Arabic, and that is why they did not find the witnesses whom God had asked for in Surat Al-Baqarah.

For fear of being long, and hopefully to discuss with you, dear reader, the two previous proofs in the comments. I will stop here, and promise insha'Allah to continue to present evidence that the Qur'an is the word of God in the upcoming articles.
